

SONAL BHAGRIA

Lead Product Designer | AI driven UX Researcher | Design Strategist

9999793270 | sonalbhagria@gmail.com | [Portfolio](#) | [LinkedIn](#)

Summary

Lead Product Designer with 16+ years experience, including 8+ at The Economist Intelligence Unit, building B2B insight platforms used by 930+ organisations across 60+ countries. Built EIU's India design team (4 hires, all promoted to senior within 2 years) and lead squad delivery from discovery to release alongside product, engineering and QA. Designed EIU's first agentic AI experience, Lens, now used by 16K users across 350+ enterprise clients. Speaker on AI-assisted synthetic UX research at national design conferences.

Skills

Product Design: End-to-End UX Design • Interaction Design • Information Architecture • Wireframing • Prototyping • Design Systems • Accessibility

Research & Discovery: User Research • Synthetic User Research • User Interviews • Usability Testing • UX Audits • Insight Synthesis

Leadership & People Management: Design Leadership • Mentoring and Developing designers • Team Management • Stakeholder Management • Product Strategy • Agile Delivery • Cross-Functional Collaboration

Tools & Platforms: Design: Figma • Miro AI & Research Assistants: ChatGPT • Claude • Gemini • NotebookLM

Experiences

The Economist Intelligence Unit (EIU), Gurugram — Lead Product Designer

MARCH 2018 - PRESENT

Key impacts:

- Hired 4 designers to build EIU's India design team; all were promoted to senior within 2 years and now lead individual products. Mentored them and provided performance input.
- Led squad delivery from discovery to release, aligning product, engineering and QA on scope and trade-offs.
- Designed Lens, EIU's first agentic AI experience: adoption rose from 4% to 11%+ of daily

users in three weeks, reaching 16K users across 350+ enterprise clients.

- Led design of a major platform migration, reaching 89% adoption among eligible users within 90 days.
- Raised monthly returning-user rate to 67–70% and grew engagement with priority search, filtering and content features by 8–15% month over month.
- Identified \$200K+ in revenue at risk through account-behaviour analysis and UX audits; redesigned onboarding and re-engagement around key drop-offs.
- Built EIU's first shared design system and governance model, reducing design-to-engineering rework.

Incedo Inc, Gurugram — *Technical lead*

AUGUST 2013 - MARCH 2018

Key impacts:

- Managed a cross-functional squad of 5 as design lead, driving product vision from requirements through to launch across multiple concurrent client engagements
- Led end-to-end UX for white-label OTT streaming applications (ViewLift) across iOS, Android, Apple TV, Fire TV, and Xbox — serving major sports leagues and broadcast networks globally
- Owned information architecture, prototyping, and design handoff for a trading and investment platform (Indiabulls) — translating complex financial workflows into intuitive, accessible user experiences
- Delivered consistent UX across 5+ device platforms, balancing client branding requirements with platform-specific interaction standards.

Damco solutions, Faridabad — *Senior UI/UX Designer*

JULY 2010 - AUGUST 2013

Key impacts:

- Delivered UX design across digital products — user flows, wireframes, prototypes, and UI specifications
- Conducted usability testing and persona research to inform design decisions

Speaker and community engagements

Speaker – UXINDIA 2025 (Sept 2025)

Synthetic UX Research

Designing with AI When Users Are Out of Reach

Speaker – GO UX 2.0 Meetup, SRM Institute, Chennai (Feb 2026)

Beyond Human Limits: AI-Led UX Research and Responsible Design

Education

Institute of Management Technology (IMT CDL), Centre for Distance Learning, India,
Post Graduate Diploma in Management in Marketing

Maharishi Dayanand University, India
Btech, Computer science

Interaction design Foundation, India
UX design Certifications, UX Design, Interaction Design, Human-Centred Design
